Lutheran Church Observes 400th Anniversary of Catechism.

By holding mass meetings in large centers and special services in congregations; by sponsoring an essay contest for parish and Sunday school children; by publishing several books on the history and importance, and by publishing special Jubilee editions of the so-called "Small" Catechism or the Layman's Bible, the Lutheran Church all over the world will commemorate this year as the 400th anniversary of the two Catechisms published by Luther in 1529.

The book so uniquely vital has a fascinating history. It contains the fundamental truths of Christianity set forth in the form of questions and answers. It was written as a result of necessity. A survey of conditions in the churches of Saxony revealed a deplorable lack of Christian knowledge, even among clergymen. Like his 95 Theses, Luther's Catechism took Europe by storm. Edition after edition was printed and sold not only in the original, but also in numerous translations. Ever since it has remained the chief text book for religious instruction of Lutheran children in all lands. Today it appears in more than one hundred languages and thousands are daily studying the booklet that first appeared in 1529.

What does the Catechism contain to retain its popularity and usefulness for 4 centuries? The great truths of the Bible are summed up and presented in a form so simple that every child may grasp them. Like the Bible, these truths are eternal and meet the needs of every soul in every age.

Luther begins with the Ten Commandments, to each of which he adds a brief word of explanation, showing man's failure to keep the Divine Law and the consequent eternal doom. The Apostolic Creed follows, and is divided into three articles, each dealing with one Person of the Trinity. The explanations of the three articles are classic definitions of our Faith in God the Father our Creator,

Ford

FORD SAFETY.

Safety, comfort, reliability, economy, speed, acceleration, beauty—these are the features that make the new Ford such good value. Of all these is none more important than SAFETY.

The safety of the new Ford comes not only from its efficient brakes, but from many other factors. Among these are ease of steering and control, the Triplex shatterproof glass windshield, and the sturdy, balanced construction of the car.

We can make immediate deliveries on all models.

LOCAL NEWS.

Mr Percy Barm, a former resident of this district, returned Sunday morning from Clave district, and will operate a farm in this district the coming season.

Mr Bert Ratcliff, who has spent the past year in the oil fields in the South, returned to his home here on Sunday for a short vacation.

It is taken as a settled fact that the Calgary Power Co. will not enter the Stony Plain area for supplying electric energy at present, a report saying that an official of the company considered the prospective income did not warrant the expenditure that the construction of a line to Stony would entail.

A meeting of Town council will be held tonight in Town hall, when the matter of the lighting of the streets will come up for discussion. It has been suggested that the town increase the grant to the local light and power company for supplying the street lights, with the proviso that the Council retain the right to act in an advisory capacity on how the plant should be operated. It is expected Mr Armbruster will be in attendance.

Mr Christie, the caterer, is planning to put his new electrical plant for refrigerating and lighting purposes, in a separate building to be erected in the rear of his restaurant. The plans for this are about completed and construction will commence so soon as weather conditions permit. When completed, this plant will surpass any of the private electric layouts in this district.

GIRL WANTED at Christie's Confectionery; must be experienced.

Friday's Debate.

The subject of the debate at the High school closing hour on Friday afternoon was: "That High school girls should wear uniforms while in school."

The affirmative side was taken by Miss Marie Clarke and Mr Val Pailer, while the negative side was represented by Miss Barbara Mundt and Mr Jas Alton.

The latter side won by a small margin. The judges were: Miss Dweek and Messrs C Andersen and Harrison.

God the Son our Redeemer, and God the Holy Ghost our Sanctifier.

The Lord's Prayer is the third part: each petition is briefly yet adequately explained. Sections on the two Sacraments, Baptism and the Lord's Supper, as well as our Confession and Absolution, comprise the balance of the book.

A book of this kind deserves the attention that will be given to it this year.

Canada's Financial Position

The financial position of the Dominion of Canada, as revealed by Hon. J. A. Robb, in the budget presented by him to the House of Commons on March 1, is such as to be the source of great satisfaction to all citizens, because, irrespective of party affiliations, every Canadian is intensely interested in the allied subjects of Dominion finances and taxation.

During the war Canada piled up a huge debt for a nation of less than ten million people. The people assumed the heavy burden without grumbling, knowing it to be absolutely necessary, and a price that must be paid to safeguard the liberties of the world, including their own. As war expenditures enormously increased and the debt piled up, it, of course, became necessary to impose much new and heavier taxation, not only to keep the debt as low as possible, but in order to meet heavy annual interest payments upon that debt.

Even after victory was won it was necessary to still further increase the debt in order to bring our armies home from Europe, re-establish the men in civilian life, and make provision for huge sums to be paid annually in pensions. Therefore, for some years the debt continued to increase and heavy taxation to be imposed. At one time it almost seemed that, instead of the debt being decreased, it would go on increasing from year to year. Recent budgets have, however, been most encouraging, and none more so than that of March 1, last. After meeting all expenditures on both current and capital account, Canada rejoices in a surplus of \$70,000,000, the largest ever recorded since Confederation. And this surplus for 1928-29 follows on the heels of a surplus of \$67,000,000 in the preceding year. The net result is that as loans made by the Finance Minister is in the happy position of being able to pay them off in cash and not forced to borrow by refunding loans. In other words, the debt is being steadily, even rapidly, reduced. In the fiscal year now closing, Mr. Robb paid off \$53,000,000, and he has cash in hand to pay off another \$60,000,000 which falls due next August. Thus in two years \$113,000,000 is paid off the national debt, and about \$6,000,000 a year saved in interest.

Mr. Robb pointed out that seven years ago, on April 1, 1922, the annual interest charge on the public debt amounted to \$133,482,113, whereas on April 1, 1929, the annual charge would be \$117,142,100, a decrease of \$16,340,012.

This very gratifying reduction has been brought about, not by increasing taxation, but, on the contrary, in the face of a steady lessening of that burden. For example, the sales tax, which a few years ago was six per cent, is now only two per cent; the rate of postage has been reduced from three to two cents; the size of incomes exempt from taxation has been increased, and the rates payable on others reduced; the stamp taxes on receipts abolished and on cheques largely reduced; numerous reductions in customs tariff schedules have been made, and now taxes on telegrams, cables, insurance policies, railway and steamship tickets are to go.

It is not possible, of course, to remove taxation as rapidly as it was imposed during the war years, but every year sees some advance in the right direction made. And every such reduction has had a beneficial effect on the business of the country with the result that the lower rates have brought in revenues only slightly smaller.

Reduction in taxation has been made possible through three main causes. First, the care exercised by Mr. Robb over all expenditures which he has insisted be kept down to the lowest possible point consistent with efficiency and the expanding needs of the country. Economy has been enforced to the point where development of the country was checked, but expenditures on non-productive services have been kept to a minimum. Second, whereas in 1920, 1921 and 1922, the Canadian National Railways were operated at a deficit amounting in these three years to no less a sum than \$148,000,000, in the year just closed, the C.N.R. not only paid all operating expenses, all interest on bonds and debentures held by the public, but accumulated a cash surplus of \$6,000,000. Third, the substantial increase in the trade and commerce of Canada, assisted by reductions in taxation, and the marked development in all branches of industry, has brought larger revenues to the Government.

And the bright, promising feature of the situation is that all indications point to a continuance of these same favorable conditions throughout the next fiscal year so that the people of Canada can look forward with a large degree of confidence to next year's Budget disclosing another large reduction in the national debt and still further decreases in taxation.

New Land Under Cultivation

Are Annually Taken Up

Additional extensive areas are annually brought under farm cultivation in Western Canada. Last year it was estimated a total close to 2,600,000 acres of Canadian Government free homestead lands were taken up by settlers in the four West provinces; a total of 15,500

homesteads being filed upon, each of 160 acres, compared with 6,357 in 1927.

There is now one motor vehicle for every 21 of the population of Great Britain.

Mother Graves' Worm Exterminator will drive worms from the system without injury to the child, because its action, while fully effective, is mild.

Without Comment

A California authoress sent a manuscript to Ambrose Bierce, with the request that he give her "a criticism in one sentence, and drop further comment." Something was heard to drop all up and down the Pacific coast when he replied: "The covers of your book are too far apart."

Not only does the girl in some districts of Indo-China make the proposal, but with her also lies the initiative for divorce.

To Boost Edmonton

New Industrial Association Has Been Organized To Encourage Industries

A new association has been formed in Edmonton under the name of the Edmonton Industrial Association, of which J. B. Starky, of the Penn Mine, is president, and W. R. Howson, local barrister, vice-president. The association gave a get-together dinner recently, which was attended by 150 business men. The object of the organization is to patronize Edmonton-made goods and to encourage industries in this city.

Sore Corns Drop Off If You Use "Putnam's"

When you notice any sign of callous on the feet or toes—that's the time to point on a few drops of PUTNAM'S CORN EXTRACTOR. Do this, and you prevent corns. No matter if the corn is hard or soft. Let it be on top or between the toes. Putnam's will remove it without pain. Insist on PUTNAM'S CORN EXTRACTOR. It does the work—and roots out the corn, quickly and without pain.

Predicts Library Of Aerial Photographs

May Be Created Within Ten Years Says J. W. Pierce

The creation of a library of one million aerial photographs within the next 10 years to constitute a reference inventory of Canada's natural resources, has been predicted by President J. W. Pierce, D.L.S., at the annual convention of Dominion Land Surveyors at Ottawa when he said that already 250,000 aerial photographs covering areas from coast to coast have been assembled and placed in use for this purpose under the Topographical Survey of Canada, Department of the Interior.

ABOUT YOUR NERVES

Headaches and Other Troubles Follow When the Nerves Give Way

Nerves are delicate fibres running from the brain to all parts of the body. Some of them give us the sense of touch and feeling; others convey the will to our muscles and enable us to move. When we have an "attack of nerves" it means that the body is in some way out of order and the nerves have become over-sensitive so that we get neuralgia, nervous headache, sciatica, or some other nerve trouble. Sometimes the nerves get too weak to do the will of the brain, and we get trembling hands or limbs or perhaps St. Vitus dance. The whole nervous system is fed and kept healthy by your blood. If that is thin and poor, nervous weakness follows. In that case a tonic is needed to build up the blood, so that it may in turn feed the nerves, spine and brain. The very best medicine for enriching the blood is Dr. Williams' Pink Pills. You cannot take them without feeling the uplift they give. Your appetite improves, your brain is clearer, you feel full of new life. One sufferer, Miss Margaret R. MacDonald, Catalina Road, N.S., tells what this medicine did for her. She says:—"I suffered for a long time from severe headache and nervous exhaustion. I tried several kinds of medicine but got no relief until I used Dr. Williams' Pink Pills, and these, before long, gave me complete relief. From my own experience I feel that I cannot praise Dr. Williams' Pink Pills too highly, and would advise anyone who is suffering from headaches or nervous exhaustion, to give them a fair trial, as I feel sure the results cannot be anything but satisfactory." Take these pills as a tonic if you are not in the best physical condition and cultivate a resistance that will keep you well and strong. You can get these pills through any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

George Washington's second inaugural address contained 134 words, and is regarded as the shortest in the history of such occasions in the United States.

Has Met With Success

Marshall Stillman Movement In States Helps Discharged Convicts To Reform

Possibly few persons could any oft find what the Marshall Stillman Movement is, and yet it is grappling with, and greatly aiding in the solution of, one of the most pressing social problems in the United States, that of taking care of the convict on his discharge. It strives to catch the former convict just as he leaves prison in a mood of uprightness and to give that mood an opportunity to express itself. Its "clubs" have figured as perhaps the most important feature of its work until recently, but during the last year the question of jobs for its wards has been answered more successfully than ever before by the establishment of enterprises where former convicts alone are employed. The plan has succeeded beyond expectation, and to date, has to its credit a 100 per cent. record of achievement; that is, there have been no backsliders.

Society has in the past been responsible for many first-time offenders becoming habitual criminals. This movement is an effort to enable men who earnestly desire to do so, really to straighten out. — Chicago Science Monitor.

YOU CAN'T DYE with Good Intentions

You can get results—after a fashion—with any old dye; but to do work you are proud of takes real anilines. That's why we put them in Diamond Dyes. They contain from three to five times more than other dyes on the market! Cost more to make? Surely. But you get them for the same price as other dyes.

Next time you want to dye, try them. See how easy it is to use them. Then compare the results. Note the absence of that red-dyed look; of streaking or spotting. See that they take none of the life out of the cloth. Observe how the colors keep their brilliance through wear and washing. Your dealer will refund your money if you don't agree Diamond Dyes are better dyes.

The white package of Diamond Dyes is the original "all-purpose" dye for any and every kind of material. It will dye or tint silk, wool, cotton, linen, rayon or any mixture of materials. The blue package is a special dye, for silk or wool only. With it you can dye your valuable articles of silk or wool with results equal to the finest professional work. Remember this when you buy. The blue package dyes silk or wool only. The white package will dye every kind of goods, including silk and wool. Your dealer has both packages.

W. N. U. 1776

Graphic Story of Manner In Which Record Crop of 1928 Was Conveyed to Markets

Six tons of grain a second! Canada's greatest grain crop was on its way to the four corners of the world. Motor trucks and especially constructed horse drawn wagons were rolling from the harvest fields to the country elevators along the lines of the Canadian Pacific Railway. And on September 21st, last, they delivered 6,040,547 bushels representing 181,241 tons or six tons every time a switch ticked. That was a record day in a record breaking shipping season. That was grain. That was also a glimpse, a cross section, of the manner in which the record crop of 1928 was handled from the fields to the elevators, and from the elevators to the markets. The crop of 1928 was the largest in the history of Canada and the Canadian Pacific Railway moved every existing grain hauling record in getting it to market. The Company used more cars and more engines more times; loaded more grain; ran more trains; gave employment to more men than ever before in its history; and even managed during the crop moving period, from August 1st to December 14th, to move the longest and longest grain train of all time when one engine steamed into Arco, yards dragging 135 loaded cars behind it.

From August 1st to December 14, the farmers in the province marketed 266,262,935 bushels of grain on Canadian Pacific lines, a gross of 62,296,971 bushels more than during any previous season. It came in by the millions of bushels a day, and it was up to the railway to keep it moving. The railway did by loading thousands of cars a day until on December 14, the total cars loaded reached the amazing number of 152,863, surpassing the totals of previous years by 22,975 cars. Railwaymen from the vice-president down to the junior apprentice in the shops knew that the average grain haul was being exceeded and they worked, reaching the peak of their labors during the nine days preceding October 31st, when 18,418 cars were loaded and moved away, an average of 2,046 a day. The old records dropped one by one until at the close of navigation on the Great Lakes, eighty-four per cent of the grain entrusted to the Company for transportation was loaded and rolling east to the Atlantic and west to the Pacific Coast. The cars loaded if placed end to end would have made one tremendous argony of grain 1,160 miles long.

Preparation, organization of the best kind alone enabled the Canadian Pacific Railway to cope with the terrific rush of grain. This preparation commenced weeks ahead of time with a close check up of equipment, and general lightening of the belts by those scheduled to do the job. The next step is found in the pre-season distribution of empty box cars from the Winnipeg terminals to the sidings alongside the country elevators. The empties and the exact number of empties do not arrive at the different sidings by accident. They are placed in keeping with estimates of the amount of grain which will be delivered. On August 1st, last year, approximately 41,000 box cars were on their way to the Great Lakes, and all during the fall movement they were hauled down to the Head of the Lakes or to the Pacific Coast, loaded and back empty to the prairies. The return movement of empty grain cars constitutes one of the major problems of the rush period. On the average the Canadian Pacific, in addition to the exceptionally heavy loaded movement, hauled from 1,500 to 1,500 empties west out of Winnipeg daily. The peak of empty movement serves to illustrate the magnitude of this phase alone. During the seven working days, October 10th-21st, twenty-two trains of empties each composed of seventy cars were rushed west daily in order to meet the marketing demands of the farmers. Canadian Pacific Railway grain cars are much traveled pieces of equipment. The distances in the west are great, and the cars are kept busy. When they awaken, Western agents in Winnipeg, Ogden shops in Calgary, and the Vancouver shops repair them immediately and send them back to the road again. The traveliveness

of a grain car is well illustrated by the following facts. A total of 45,890 cars were loaded in the province of Alberta. Of these, sixty-five per cent, or 30,054 moved east to the Head of the Lakes, with an average road haul per car of 1,000 to approximately 1,500 miles. The balance 15,836 cars moved west to Vancouver, with an average haul per car of from 642 to 836 miles. The loadings in Saskatchewan up to December 14, totalled 76,408 cars and each car had an average haul of 818 miles, while the cars loaded in Manitoba had an average journey of 522 miles. When it is remembered that each car made several round trips a general appreciation of the total mileage will be gained.

The magnitude of the whole undertaking is indicated when it is understood that from August 1 to December 14, the Canadian Pacific delivered 116,811 cars of all grain containing 140,017,597 bushels at the Head of the Lakes, and in addition delivered 16,070 cars containing 24,100,000 bushels at the Port of Vancouver, or a total of 132,881 cars, containing 166,122,598 bushels delivered to terminal elevators for storage.

A New Race Of Beef Animals

A Mixture Of Yak, Buffalo and Domestic Cattle

The yak, a member of the plateau of Tibet, is being used by the experimental farms in a hybridizing experiment to mingle the blood of the buffalo and ordinary cattle. After many attempts to make direct crosses between cattle and the buffalo, failure was the result owing to reproduction difficulties. The yak has been introduced as an intermediary and hopes are entertained that a hardy, beef producing animal will be evolved for grazing in northern latitudes. The report of the Dominion Animal Husbandman for 1927, published by the Department of Agriculture, at Ottawa, contained an account of the work so far accomplished. This breeding work is being carried on at Wainwright, Alberta. The Dominion Animal Husbandman states in his report that the experiment, in so far as it has gone, has been remarkably successful as shown through the numerous excellent individuals combining the blood of the yak and buffalo, the yak and domestic cattle, and their offspring now coming, combining the blood of buffalo, yak, and domestic cattle.

World's Biggest Banks

Out Of The Twelve Most Important Two Are Canadian

Which are the biggest banks in the world? Most people, we suppose, would be inclined to say that these would be found in the United States. But they would be wrong. Information on the subject has been received from France showing the relative position, according to deposits, liabilities, of the largest banks of the British Empire and of the United States. The figures, which are compiled mainly from American sources, show that out of the 12 most important banks in the world eight are British (two Canadian), and out of the six great banks with more than £200,000,000 in deposits the first five are British, the sixth on the list being American.

Prefer Trial By Judge

Few Japanese Take Advantage Of New Jury System

The surprisingly few defendants who have taken occasion to ask for trial by jury and the fact that appeals from the jury verdicts have been based on the claim that the judge was prejudiced are two of the outstanding results of the five months' trial of the jury system in Japan.

Only 26 cases have gone to the jury since October 1, when trial by jury became effective in all parts of Japan. The defendant is not required by law to be tried by jury, but is given his option of this form or the older form of trial by judge.

Ship Eggs To South America

Sample Shipment From Vancouver Goes To Buenos Aires

In a belief that egg shippers in Canada, and more especially those along the Pacific coast, should secure a large share of the Argentine import trade, the Dominion Livestock Branch has just made a sample shipment of fresh eggs and fresh flocks to the Canadian Trade Commissioner, at Buenos Aires, who will present samples to the importers in that city. The fact that all shipments are Government inspected is "taken as an important factor in capturing a share of this trade."

Proved To Be Right

"Sandy Gordon was getting married, and as the wedding day drew near he began to find that it was costing him more than he bargained for, so he asked a crony what the minister charged for officiating at due ye for that?" "Oh," he replied, "Well, Sandy, after I got married I asked the minister, 'How much am I due ye for that?' 'Oh,' he replied, 'just what ye think he is worth,' so I handed him a shillin'. 'You're far too generous,' said he, and handed me back a shapenon. An' d'ye ken, Sandy, he was right!"

Mother: "Eupret, darling, when you divided those five sweeties with cousin Eleanor, did you give her three?"

Eupret: "No! I knew they wouldn't come out right, so I ate one, and then began to divide."

Health Is a National Asset. More Valuable Than Crops. And Must Be Conserved

Alteration in School Lands Sales Policy

Little Demand For Them At Present Says Minister of Interior

A change in the policy of Hon. Charles Stewart, minister of the Interior, in regard to the sale of school lands, has been announced. The statement issued by the department reads as follows:

"The Minister of the Interior has recently received representations from stock associations to the effect that the Saskatchewan ranchers should be allowed the same measure of consideration as the Alberta ranchers received in connection with school lands which form an integral part of their ranching operations."

The minister says that from the results of the Alberta sales held last fall, it is quite apparent that there is very little demand for such lands at present at the minimum upset price, which is \$7 per acre, and under the circumstances it has been arranged with the provincial authorities on the request of the holder, school lands will be withheld from the forthcoming spring sales where they shut on two or more sides the holdings of permittees of the school lands.

"Apparently some ranchers have been using school lands surrounded by their Dominion lands grazing leases, without taking up school lands grazing permits, and, in order to qualify under the arrangements, they will have to pay the accrued back rental on these parcels; such arrangement will cause no hardship to the rancher and will add materially to the revenue of the school land endowment."

"These school lands will be offered for sale when there is a better demand, and when there is chance of obtaining better price."

Will Use Canadian Coal

Products Therefrom Will Dominate Future Markets Says Expert

Coal and the products therefrom will hold predominant position in the economic world within the decade and Canada with its predominance of one-tenth of the world's coal deposits is in a position to dominate the markets of the western hemisphere. Such is the opinion of Sir Arthur Buchanan, head of the British mission to Australia, on Empire trade, who is travelling through Canada in a special car on the Canadian National Railways from Vancouver to Toronto.

Sir Arthur, who is an expert on the utilization of coal and its by-products, is emphatic that an era of manufacture, economic utilization of Canada's coal products will place her in a predominant position in the manufacturing world, during the coming decade. Empire production affecting Australia from where he has recently come, Canada, South Africa, India and other sections of the British Commonwealth is in the melting pot and solutions of the problems of the Empire trade are not only discernible but imminent.

Wanted Her Change

A woman travelling northward from Banbury pulled the communication cord when the train had left the station some distance. The train was stopped, and when the guard made inquiries the woman stated that she tendered a boy's expense for an apple on Banbury station platform and wanted her change.

Swedes Receive Radium

Six grams of radium, valued at \$200,000, have just arrived in Stockholm from Belgium. They were purchased with a part of the Million Dollar Jubilee Fund, which was collected by Swedes at home and abroad as a gift to King Gustaf, on his 70th birthday.

Indication Of Prosperity

The purchasing power of the people of Canada increased by \$500,000,000, during 1928, when the revenue from the productive industries reached the record total of \$6,540,278,000, an increase of about \$500,000,000 over 1927.

(By Dr. Gordon Bates, General Secretary, Canadian Social Hygiene Council)

Is the life of a farmer worth as much to Canada as the life of a stockbroker in a big city?

I think so.

Then why is it that so much more money is spent on safeguarding the stockbroker's life and health than the farmer's?

Why is it that to keep the stockbroker healthy, the big city has an efficient medical health officer, working all day, every working day in the year, and an excellent health department, while the farmer has only an overworked, part-time county medical health officer to advise him about what to do in order to keep from getting sick?

Of course, it is an excellent thing that the city people should have their big health organization to protect them against typhoid, smallpox, diphtheria and all the other diseases that kill so many thousands of Canadians, every year, long before they have lived out their three-score-and-ten.

For it has been proven beyond a doubt that in Toronto, for just one instance, there would be 2,700 more deaths every year if it were not for the activities of the Toronto Medical Health Officer and his staff, in keeping sickness down and saving lives from disease.

But if that is the case, and it undoubtedly is, then why shouldn't people in the country, and in towns and villages share in all these life-saving advantages? Their lives are just as important to Canada as the lives of city dwellers. We are all Canadians. Yet, every year, in rural and semi-rural Canada, thousands of lives are lost that could have been saved, if these places had the same public health work done for them, that the cities have.

The answer is that public health work, though it saves lives, costs money. And the big cities have the money to spend while the rural counties have not.

But is that altogether fair? Already many prominent Canadians are beginning to decide that it is not. More and more, people are beginning to think that health is a national asset, more valuable than gold mines or railways, and as valuable as crops and rain, and that it must be conserved.

In Quebec, where people began to feel this way some time ago, they organized "County Health Units," small, full-time medical health departments. Since then, the counties protected by the County Health Units have had fewer deaths and fewer cases of sickness than ever before. Their health has improved amazingly. Hundreds of lives have been saved.

What has worked in Quebec will work equally well all over Canada. Some day every part of Canada will have a County Health Unit. Even now a plan is being worked out, and it is hoped that it will be adopted, whereby the Dominion and the provinces will combine to help the counties to pay full-time County Health Units.

Some such plan must inevitably be put into effect. Until it does, valuable lives are being lost each week in rural Canada, lives that the country can ill afford to lose. Lives that could be saved, if country people had the same chance that city people have.

Why choose the lesser of two evils—dodge them both.

"Once a week I am going to play what is the lynchman hour." "They say go! I can see you dying a lurid death at Monte Carlo." — Jürgen, Munich.

BABY'S OWN TABLETS
WIN GREAT PRAISE

Many Mothers Always Keep Them In the House

Thousands of mothers state that they know of no other medicine for little ones to equal Baby's Own Tablets—that they always keep the Tablets in the home as a preventive of childhood ailments, or if sickness does suddenly grip their little ones they feel safe with such a remedy at hand.

Concerning the use of the Tablets Mrs. Donald Ploudre, Tingwick, Que., writes:—"I have nothing but praise for Baby's Own Tablets. They are the only medicine I have ever given my two little ones and I am glad to state that the Tablets have always kept them in perfect health. I feel so safe with the Tablets that I always keep a box in the house."

Baby's Own Tablets are a mild but thorough laxative. They regulate the bowels, sweeten the stomach and thus banish constipation and indigestion; break up colds, relieve fever and make the cutting of teeth painless. The Tablets are absolutely safe, being guaranteed free from all injurious drugs. They are sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Turkey possesses important forest resources, chiefly in the northern districts of Anatolia.

Are You Ready

When your Children Cry for It

Baby has little upsets at times. All your care cannot prevent them. But you can be prepared. Then you can do what any experienced nurse would do—what most physicians would tell you to do—give a few drops of plain Castoria. No sooner does than Baby is soothed; relief is just a matter of moments. Yet you have eased your child without use of a single doubtful drug; Castoria is vegetable. So it's safe to use as often as an infant has any little pain you cannot pat away. And it's always ready for the crueler pangs of colic, or constipation, or diarrhea; effective, too, for older children. Twenty-five million bottles were bought last year.

Fletcher's CASTORIA

WORLD HAPPENINGS BRIEFLY TOLD

The French Parliament has ratified France's signature to the Kellogg renunciation of war pact by a vote of 570 to 12.

There were 2,300,000 unemployed in Germany on February 15, an increase of 50,000 since the end of January, official figures show.

The year 1923 was a disastrous one for Canadian hail insurance companies, the loss ratio being 100.39 per cent. of the premiums, according to official figures released at Ottawa.

Announcement is made by the Canadian Bank of Commerce that arrangements have been made to open a branch at Fort Churchill, Man., the eventual terminus of the Hudson Bay Railway.

Edmond J. Massicotte, well known Canadian artist, died at his home at Sault Aux Reclottes, Que., after a short illness. He was 53 years of age. Massicotte was known chiefly through his pen and ink sketches of Canadian subjects.

A total of \$9,814,531.65 was spent in 1928, in grading, track laying, and ballasting on the Canadian National Railway lines according to a report tabled in the House of Commons by Hon Charles Dunning, minister of railways.

Asthma No Longer Dreaded. The dread of renewed attacks from asthma has no hold upon those who have learned to rely upon Dr. J. D. Kellogg's Asthma Remedy. So safe do they feel that complete reliance is placed on this true specific with the certainty that it will always do all that its makers claim. If you have not yet learned how safe you are with this preparation at hand get it today and know for yourself.

One of the world's largest dams has been constructed on the Indus river, in India, for irrigation purposes.

Internal parasites in the shape of worms in the stomach and bowels of children sap their vitality and retard physical development. They keep the child in a constant state of unrest and, if not attended to, endanger life. The child can be spared much suffering and the mother much anxiety by using a reliable worm remedy, such as Miller's Worm Powders, which are sure death to worms.

The Japanese alphabet possesses two sets of characters—katakana for the use of men, hiragana for women.

The Oil Of The People.—Many oils have come and gone, but Dr. Thomas' Electric Oil continues to maintain its position and increase its sphere of usefulness each year. Its sterling qualities have brought it to the front and kept it there, and it can truly be called the oil of the people. Thousands have benefited by it and it would use no other preparation.

At Broussa a Turkish captain has been sentenced to a year's hard labor for opposing the new alphabet introduced by Mustafa Kemal.

Sores Flee From It.—There are many who have been afflicted with sores and have driven them away with Dr. Thomas' Electric Oil. All similarly troubled should lose no time in applying this splendid remedy, as there is nothing like it to be had. It is cheap, but its power is in no way expressed by its low price.

The first patent for the manufacture of wallpaper was taken out in 1682.

Minaard's Liniment prevents Flu.

SUNDAY SCHOOL LESSON

MARCH 17
THE CHRISTIAN SABBATH

Golden Text: "For the Son of man is Lord even of the sabbath."—Matthew 12:8.

Lesson: Genesis 22, 3; Exodus 20, 8-11; Matthew 12:1-14; 28:1-10; John 20:19; Acts 20:7; Romans 14:4-8; Revelation 1:10.

Devotional Reading: Psalm 92:1-5, 12, 13.

Explanations and Comments

Reverence the Sabbath, Exodus 20, 8-14.—Remember the Sabbath day, to keep it holy: The root meaning of the word rendered "hallowed" in verse 11, is "to separate"; the Sabbath day is to be separated from other days by the way it is spent. Six days shalt thou labor, and do all thy work.

There are many persons whose difficulty in keeping this fourth commandment lies right there—they are too lazy to work the six days. The commandment lays stress upon working as well as upon rest. "Every man is as lazy as he dares to be," is an oft repeated saying which is not without some measure of truth. "Life without industry is sin," declares Ruskin. The tragedy of many a life is that time is not felt to be a trust for whose use he must render account. "Tis the measure of a man's apprehension of a day."

"You keep the sabbath in imitation of God's rest. Do, by all manner of means, and keep also the rest of the week in imitation of God's work."

—Ruskin.

The setting apart of one day in seven for rest and worship was due, primarily, to the fact that the human machine will run six days with ease and regularity if it can rest on the seventh day, but it will break and break if it is pushed on through every day alike. The duty of rest is quite as imperative as the necessity of work. The individual or the nation that disregards this law pays the penalty.—Amory H. Bradford.

ACHES

WHEN a cold or exposure brings aches and pains that penetrate to your very bones, there is always quick relief in Aspirin. It will make short work of headaches or any little pain. Just as effective in the more serious suffering from neuralgia, neuritis, rheumatism or lumbago. No ache or pain is ever too deep-seated for Aspirin tablets to relieve, and they don't affect the heart.

ASPIRIN

Aspirin is a Trademark Registered in Canada.

Christie's Sultanas

WINDOLITE The Improved Glass Substitute

MADE IN ENGLAND

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle shade, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and is now being successfully used for sunrooms, verandas, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 ozs. while a square yard of glass of ordinary thickness, weighs about 135 to 150 ozs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

Use WINDOLITE and let YOUR PLANTS YOUR CHICKENS YOUR CATTLE Bask in 100 % Sunlight Send for booklet "WINDOLITE"

COMES WITH A MESSAGE OF HEALTH

THE sun is the all-powerful life producer. Nature's universal disinfectant and germ destroyer, as well as a stimulant and tonic. WINDOLITE is the sun's most important ally.

Medical research has definitely proved that from the point of view of health and hygiene, the most effective among the sun's rays are the Ultra-Violet rays, which possess the greatest power for the prevention and cure of disease and debility.

Science has further established that ordinary window glass does not allow the passage of Ultra-Violet rays, so that by using glass we are artificially excluding these vital health-giving rays. Therefore, the invention of WINDOLITE has completely satisfied the long-felt want. Exhaustive experiments have conclusively proved that it is a most effective substitute for glass, that it freely admits the Ultra-Violet rays, and that its use has a most beneficial effect on the growth and development of plants and chickens and on the well-being of cattle, enabled for the first time to have healthy light instead of darkness in their abode.

Indeed, the discovery of WINDOLITE has during the last six years completely revolutionized gardening, given a new stimulus to poultry breeding, increasing the egg-laying capacity and fertility of chickens, has greatly improved the health of cattle and is now being used in domestic and household requirements.

RESOLUTION ON RESOURCES IS FINALLY ADOPTED

Ottawa.—After a stormy career, the Woodworth resolution on natural resources, in amended form, finally passed the House of Commons. Debate on the resolution and on the numerous amendments which followed its introduction, has held up consideration of the budget for several days.

The resolution finally emerged, after the buffeting which it has received, in a very different form from that which its mover intended. As originally drafted and presented to the House by J. S. Woodworth, Labor member for Winnipeg North Centre, it set forth "that in the opinion of this House, no disposition of the natural resources, under the control of the federal government, shall be effective until ratified by Parliament."

The resolution as approved by Parliament, reads as follows: "That, in the opinion of this House, no further disposition of water powers under the control of the federal government in the provinces of Manitoba, Saskatchewan and Alberta, shall be made under the Dominion Water Powers Act, until the said water powers shall be administered by the respective provinces under powers to be granted by this Parliament similar to the powers granted to the province of British Columbia to administer the water powers in the railway belt, as set forth in the railway belt water act of 1912."

Master Mariner Dies

Captain William Sanderson Came To Vancouver In The Eighties

Vancouver.—Death of Captain William Sanderson, pioneer Canadian Pacific Railway Company master mariner, has broken a link between the present and an earlier shipping era on the Pacific Coast. Captain Sanderson, for whom funeral services were held in Vancouver, was a native of Liverpool, and came to Vancouver in the 80's, a boatswain of the old "Empress of India" on the liner's maiden voyage. He remained in the employ of the Canadian Pacific here until his retirement some years ago.

A Record Production

Ottawa, Ont.—Mineral production in Canada reached a net record in 1928 with a total of \$73,446,884. This surpasses the 1927 figures by \$28,090,169 or 10.5 per cent. Advances were general in all fields; metals, non-metals, fuels and structural materials. Figures were made available at the Dominion bureau of statistics.

Did Not Finish Sentence

Belfast.—Eamonn de Valera, Irish Republican chieftain, was released from jail four days before finishing a 30-day sentence he had been serving for illegally entering Ulster territory.

"Marlatt's Treatment"

INTESTINAL flu, high blood pressure, nervous disorders, now a dreadful one must be to avoid these dangerous ailments at this time of the year. Keep the system clear of poisons and impurities. Tone up the liver, prevent bile stagnation and intestinal lethargy. Let Marlatt's help you as it helps thousands every year to ward off illness and disease.

Hoover Is Starting Prohibition Drive

New President Plans To Clean Up National Capital

Toronto.—A special despatch to the Mail and Empire, from Washington, says:

"President Hoover will begin his prohibition enforcement drive in Washington. He will conduct his early date with the commissioners of the district of Columbia and urge them to clean up the national capital. Another step will be to appeal to all public officials to refrain from patronizing boot leggers and drinking. His drive here may result in stopping many hosts and hostesses from serving drinks at dinners attended by public men and women."

"During the college regime Washington entertainers gradually curtailed use of strong drink at parties, but Mr. Hoover will further discourage the custom."

Opposes Intervention

Premier Baldwin Against Direct Governmental Intervention In Mining Industry

London, England.—Direct governmental intervention in the mining industry would not be advantageous, Premier Baldwin told a deputation from the Mines Federation, according to the joint report of the proceedings at the meeting recently issued. Mr. Baldwin expressed the opinion that amalgamations and other forms of re-organization in the industry were progressing satisfactorily.

The most urgent matter requiring attention, he said, was the transference of the surplus miners to other industries. He appealed for the co-operation of the Mines' Federation with the government schemes in this matter.

Wins Dog Derby

St. Godard First To Cross Line In Northern Manitoba Classic

The Pas, Man.—In the most sensational finish ever witnessed in any dog derby, Emilie St. Godard, youth "musher" of international fame, finished in the renewal of The Pas dog derby association 200-mile non-stop derby.

St. Godard reached the finishing line on the Saskatchewan river at 11:09 p.m. His time for the 200-mile course to Pin Point and return was 36 hours 59 minutes.

Earl Brydges, another local entrant, finished second, only three minutes behind the famous St. Godard, after fighting an uphill battle during the early hours of the night.

Attempt To Salvage Plane

Copenhagen.—Four members of the Hobbs' expedition in Greenland, have left Mount Evans, Greenland, on an attempt to salvage the airplane of Bert Hassel and Parker Cramer. The plane came down last summer 12 days' walking distance from Mount Evans, where the Hobbs' expedition is wintering. Word of the salvage attempt was radioed to the newspaper Ekstrabladet.

Accepts Radio Agreement

Ottawa.—Word has been received by Alex Johnston, deputy minister of marine, that Newfoundland has accepted the radio agreement concluded by Canada, the United States, Newfoundland and Cuba, covering the short waves. Cuba and Mexico have yet to be heard from.

Ex-President Will Write

New York.—Curiosity as to what Calvin Coolidge would do on returning to private life was at least partially satisfied by announcements that contributions from his pen would appear in two magazines.

Celebrates Birthday

Toronto.—Toronto celebrated its 99th birthday March 6, having been incorporated as a city by act of the legislature, which received royal assent March 6, 1834. In 1834, Toronto had a population of 9,251.

Appeal Is Dismissed

Toronto.—The appeal of Arvo Vaara, editor of Ypavus, Finnish newspaper published at Sudbury, Ont., from a conviction in that city on a charge of publishing seditious libel, was dismissed in second division court.

RECEIVES CONGRATULATIONS

Dr. Donald MacGillivray, pioneer missionary in China, who is receiving congratulations on the fortieth anniversary of his entrance into the Chinese mission fields.

To Ban Poison Gas

Germany Prepared To Sign Agreement Prohibiting Use Of Gas In Warfare

Geneva.—Germany, which introduced the horrors of poison gas on a large scale during the world war, has announced to the world that she is prepared to sign a protocol prohibiting the use of asphyxiating gas in warfare.

The announcement by Dr. Gustav Stresemann, German foreign minister, sent the regular March session of the League of Nations council off to an auspicious start in its efforts for world peace.

Stresemann said Germany would ratify the protocol shortly. August Zaleski, Polish foreign minister, announced that Poland also would ratify the protocol.

New Scholarships Offered

Acceptance To Be Considered By University Of B.C.

Vancouver.—A \$1,000 scholarship in economics, effective for three years, with a free study trip to the Orient, will be possible for students at the University of British Columbia, through an offer by H. R. MacMillan, Vancouver exporter. The offer will be considered by the board of governors of the University shortly. By means of the scholarship Mr. MacMillan hopes to promote the study of Oriental trade and business conditions on the Pacific.

Going Upstairs Had to Sit Down Breath So Short

Mrs. H. Brousseau, Magog, Que., writes:—"For many years I suffered with shortness of breath; then four years ago I had palpitation of the heart, and was so bad I had to sit down two or three times when going upstairs. I read about

so I got a box, and in no time I felt better, so I took three boxes more and I have never had shortness of breath since."

Price 50c, a box at all druggists and dealers, or direct from the receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Ice-Bound In Baltic Sea

Copenhagen.—Christian X., King of Denmark, Queen Alexandrine and Prince Knud, arrived here after spending the night aboard a ferry ice-bound in the Baltic Sea. The ship took twelve hours to make what ordinarily is a two-hour voyage from Warnemunde to Gjedser.

For Influenza

The Liniment That Relieves All Ailments

Compulsory Voting Law Is Considered

Workings Of Australian Law Being Studied By Committee

Ottawa.—Compulsory voting has been under consideration by the special committee of the House of Commons which is dealing with amendments to the Dominion Elections Act and the Corrupt Practices Act. No decision as to the principle involved will be made until sections are drafted suitable to Canadian conditions.

Dr. T. E. Kaiser, Conservative, Ontario, read to the committee the sections of the Australian act which he said was working satisfactorily. In the last election in that country 91 per cent. of voters on the lists had attended the polls as compared with 78 per cent. in the previous election. With the assistance of W. A. Boys, Conservative, Simcoe, North, Dr. Kaiser is to draft sections suitable for inclusion in the Dominion Elections Act.

The Australian Act provides a penalty of £2 for failure to vote, if no reasonable excuse can be given for such failure.

Question Validity Of Pension Law

Quebec Opinion Considers Federal Pensions Act Ultra Vires

Quebec.—Legal opinions furnished to the premier of Quebec as to the federal old age pension law raised the constitutional question as to whether or not the Dominion government has power to use its monies to pay to the provinces a part of the cost of such a scheme as the old age pension law.

This is the information which Premier Taschereau has consulted three constitutional authorities in the matter, Eugene Lafleur, K.C., Alcee Geoffrion, K.C., and Louis St. Laurent, K.C. Mr. St. Laurent gave it as a definite opinion that the federal law is ultra vires, the premier said.

Farm Loans For B.C.

Loans May Be Made Available For Agriculture By First Of May

Victoria.—Farmer loans should be available to British Columbia agriculturists by May 1, according to an announcement given out here by Dr. J. D. MacLean, chairman of the Canadian Farm Loan Board.

The chairman of the board stated that nominations for places on the provincial loan board had been made by the provincial government and will be considered by him and his colleagues immediately. The names of the provincial nominees were not revealed.

Would Retain Dole

London, England.—A reading has been given in the House of Commons to a bill which makes migrants from Britain still entitled to unemployment insurance benefits. The bill provides that a migrant who goes overseas but remains within the Empire, should receive unemployment pay for a period up to two years.

Wants Churchill Site

Winnipeg, Man.—The Manitoba government has opened negotiations with Ottawa for taking over the Churchill townsite. Hon. D. G. McKenzie has left for the capital to talk over the question with officials there. He will also visit Toronto to discuss the hydro electric rates with officers of the Ontario hydro system.

Killed By Avalanche

Erivan, Russia.—Thirteen persons were killed and many injured in an avalanche in the Armenian village of Zangur, advised here recently stated. Several houses were destroyed by the avalanche, which was reported due to heavy snowstorms in the region.

Cement Prices Reduced

Winnipeg.—A reduction in the price of cement of ten to fifteen cents throughout the prairie provinces, is announced by the Canada Cement Company.

EARLY END OF MEXICAN REVOLT IS PREDICTED

Mexico City.—A speedy end of the rebellion against the administration of Provisional President Portes Gil was predicted in an official government bulletin recently.

The bulletin said that General Jesus M. Aguirre, leader of the revolt at Vera Cruz, had been deserted by most of his soldiers, who had returned to the support of the government and were fighting their former leader.

Announcement also was made that the federals had re-captured Monterrey, the strategic center in Nuevo Leon, had taken Cordova, in the State of Vera Cruz, and would in a few days be in full possession of the Gulf port of that name.

Washington.—The Mexican government situation is causing more anxiety in Washington than anything else since the Nicaraguan revolt. Men in high government and senate circles are frank in saying that the revolt has a very good chance of overthrowing the Mexican government.

This might result in the United States having to undertake another expedition with marines to a Latin country.—The Nicaraguan experiment proved so unpopular with the average American that the government is not anxious to repeat it. But the protection of American nationals and their property in Mexico will be the first consideration.

Seek Potash Deposits In British Columbia

Prospectors Being Encouraged By Smelter Company At Trail

Victoria.—The Consolidated Mining and Smelting Company which wants potash for its new fertilizer industry on which it is entering on a large scale at Trail, B.C., announced measures here for the encouragement of prospectors in the uncharted oil potash deposits believed to exist in British Columbia.

The Consolidated will make a free analysis of samples for prospects and to aid in the identification of samples, deposits are being placed on display here and in Vancouver. A booklet on potash and its occurrence will also be sent from Trail to anyone desiring it.

Radio Helped Unemployed

Berlin.—The first German attempt to get employers and unemployed together by radio succeeded beyond hopes of those fostering it. The municipal employment offices had more jobs than men. In answer to appeal over government radio station for workers, several thousand jobs were filled.

Huge Seizure Of Narcotics

New York.—Narcotics worth \$1,000,000 at the price addicts pay, were seized as they were being shipped by express to distributors of the underground drug trade in the south and west. Four men, one of them said to be a professional bodyguard to gangsters, were arrested and held in high bail.

Mrs. Sam Speers Tells How Cuticura Healed Her Baby

"When baby was three days old he started to break out with eczema. It began with very small pimples which became very itchy. I then scaled over. When he was twelve days old he was almost entirely covered with eruptions. The affected parts seemed to itch and burn so that I had to keep mittens on his hands to prevent him scratching his face."

My mother advised me to try Cuticura Soap and Ointment. It seemed to get relief after the first treatment, and after a few days he was completely healed." (Signed) Mrs. Sam Speers, Innisfree, Alberta.

Cuticura Soap, a world-famous aid to beauty, cleanses and soothes the skin and hair, restoring them to their natural, fresh and wholesome beauty. Its daily use maintains them in a delightfully healthy condition.

-Nome Hero, Derby Winner

Leonard Sepella, hero of the famous race to Nome, is congratulated on winning the Seventh Eastern International Dog Sled Derby at Quebec. He covered 123 miles in eleven hours, six and a half minutes with his sturdy team of Siberian huskies.

Dog sled derby records were broken and new ones established during the three days of the race. Dupuis, who finished second, made a world's record when he completed the first lap of 41 miles in 9 hours, 22 minutes, 42 seconds. Of the nine who finished the three laps, only two took as long as the first Derby winner at Quebec in 1923, demonstrating that harder and speedier dogs have been developed for sled work since then.

McLAUGHLIN-BUICK'S Masterpiece
Bodies by Fisher mark the new motor
car style — McLaughlin-Buick's adjustable
front seat, full-width rear seat, adjustable steer-
ing column and other luxurious features set
the new standard of comfort—and this master-
ly new car reveals equal leadership in en-
gineering.

The new McLaughlin-Buick Valve-in-Head
engine is the most powerful automobile en-
gine of its size in the world. The new Mc-
Laughlin-Buick carburetor and constant pres-
sure gas pump are the most costly and efficient
employed on any car. The new McLaughlin-
Buick double-drop frame is the sturdiest in
this field. The McLaughlin-Buick chassis is
sealed, all parts enclosed in dust-proof, dust-
proof, water-tight housings. And McLaughlin-
Buick's cantilever springs and Lorelei Hy-
draulic shock absorbers impart unrivaled
riding luxury.

Facts like these explain why the new Mc-
Laughlin-Buick leads in performance, ap-
pearance and value, and why buyers are accord-
ing it the greatest preference ever shown any fine
car.

Notice to Creditors and Claimants.

IN THE ESTATE OF ELISABETH
GOEHZ, late of Stony Plain, Al-
berta, Deceased.

NOTICE is hereby given that all
persons having claims upon the estate
of the above-named Elisabeth Goetz,
who died on the 23rd day of May,
A. D. 1928, are required to file
with the Solicitor for the Executor by
the 18th day of April, 1929, a
full statement duly verified of their
claims and of any securities held by
them, and that after that date the
Executor will distribute the assets
of the deceased among the parties
entitled thereto, having regard only
to the claims of which notice has
been so filed or which have been
brought to their knowledge.
DATED this 28th day of February,
A. D. 1929.

GEORGE J. BRYAN,
Solicitor for the Executors.

The Domestic Animals Act (Municipalities)

Sale and Redemption of Im- pounded Animals.

Notice is hereby given under
Section 48 of The Domestic An-
imals Act (Municipalities) that I
Bay Horse, 9 years old, weight
1000 lbs., branded R on right
shoulder, was impounded in the
pound kept by the undersigned,
located on the S.W. Qr. Sec. 11,
Twp. 52, Range 3 w 5, Charles
Coleman, Duffield, Alberta, on the
13th day of February, 1929, and
that the said animal was sold on
the 27th day of Feb., 1929, to
Wilfrid Eigen, of Duffield, and
that the said animal may be re-
deemed by the owner or on
his behalf within a period of
thirty days from the publication of
this notice in The Alberta
Gazette, upon payment of all fees
and costs due to the Municipality
and the purchaser of the above-
mentioned animal.

**"Here's my idea of
a RAZOR—**

one that sharpens its own blades!"

"Why, I remember
when I used to have to
throw away a blade
after a couple of shaves.
Now, I simply take it
and give a few turns on
the strop and it's as
good as ever.

"I can shave in three minutes;
and my face is as smooth and
slick and comfortable as when
the head barber used to go
over it. To clean, I simply
put the blade under the tap
and wipe it off. There's no
taking the razor to pieces and
messing around with parts.
In fact, the whole thing is so
simple and easy, I wish I had
had one long ago."

CHAPTER XVI.—Continued.

Wild berries, dead ripe, hung on lush drooping branches.

A soft, "prut-prut-kwi-kwi!" came from the leader of a covey of willow grouse that were feeding on the tiny fruit of a crab-apple tree. The call was answered by a shyer note from one of the young birds, who probably was being taught the scale.

The summer had been one of exceptional dryness. For weeks there had been no rain, and a blazing hot sun had poured its fiery rays from a cloudless sky. The heavy mountain dews could not penetrate the close standing timber, and the carpet of needles and moss became dry as tinder. A pall of smoke, hung over lakes and mountains.

For Wilkinson and his men these were anxious days. They covered the section between the mill and Squamish twice a day; scanning the hillsides and valleys, ever watchful, ever on the alert; pleading and exhorting the settlers and loggers to greater vigilance, and all the while praying fervently for rain.

Donald had posted a notice that any employee found smoking in the woods would be immediately dismissed.

Logging creates a vast amount of debris, or "slash," as it is known to the men of the woods. With the assistance of the Forestry men, Donald's crew had piled enormous heaps of slash on the hillside, awaiting a favourable opportunity to burn. These menacing piles of brush, extending along the main road for a quarter of a mile, were a constant source of danger. Every precaution, therefore, was taken, and when the burning of the brush was raked clean, the road was patrolled day and night, and piles filled with water were placed at regular intervals. Special notices stating the great danger of fire, and warning not to smoke in this area, were posted conspicuously on tree and stump.

The mill at Cheakamus had closed. Sparks from the donkey engines had threatened the extinction of both plant and timber.

Donald with Wilkinson stood surveying the piles of dangerous waste. "If a fire starts and we can get to it at once, we will be all O.K.," said Wilkinson, "but if it ever gets away from us here," pointing down the road, "no human agency can stop it!"

They made the rounds of the patrol to satisfy themselves that the watchmen were attending to their duties. Leaving the main road, they scrambled through the tangled masses of tree-top to ascertain how far distant the slash had been removed.

from the standing timber. Suddenly a tiny wisp of smoke was seen to drift from behind a fir tree at the edge of the clearing. Without comment, both men broke into a run.

Aroused by the crashing footsteps, a young man, who had been lying stretched lazily on the soft moss, came quickly to his feet, a cigarette held in his fingers. His companion, also smoking, lay with his back against the bole of a tree a few feet distant. Fishing rods, creels, lading-nets and the remains of a lunch lay scattered on the ground.

"Don't you know better than to smoke here?" blazed Wilkinson.

The fisherman brazenly replaced the cigarette between his lips. Wilkinson's arm shot forward like a flash to pluck the offending weed from the mouth of the astonished youth. "If wish we had a law to prevent smoking in the woods, I would take great pleasure in arresting you," he growled savagely as he pinched the fire from the cigarette and ground it under his heel.

Unnoticed by the Forest Ranger, the second man removed his cigarette furtively and with a flirt of his hand thrust it behind him as he rose to his feet.

"You are too damned officious! You have no authority to prevent us smoking," he said angrily, as with clenched fists he advanced belligerently.

Wilkinson was near the breaking point. The weeks of worry, the long hours of arduous toil, and the lack of sleep, had frayed his nerves. "Damn you!" he flared, "if it's a fight you want—" He broke off suddenly, his eyes wide and staring. "My God! look!" he shouted. A flare of flame shot from the spot where the cigarette had fallen. A breeze rustled through the trees to fan the flame to a drumming roar as a pile of slash caught fire. The Red Terror was loosed.

"The alarm!" cried Wilkinson.

"Fire!" shouted Donald as he stumbled to the road.

"Fire!" repeated the nearest patrolman.

"Fire!" rang the cry down the line until the flash reached the mill, and every whistle was loosed in a screaming bedlam of sound to blanch the cheeks of these hardy men, who knew the awful terror of this devastating, devouring, fiery scourge that blazes the wilderness with smoke and ashes and takes its toll of both man and beast. Men dropped their tools and ran to answer the call.

The trapper's dugout shot swiftly across the lake.

Connie lay reading in the shade of her cabin. She came to her feet at the whistle's first call for help. Moment later, seated astride her cayuse, she was galloping down the hill.

Every man, regardless of position, answers the call to fight fire. When forest fire is raging the forest ranger is an absolute sovereign. He can call the lawyer from his desk or the labourer from the ditch, but seldom does he need to exercise this power, as every good citizen is willing to help stave the deadly scourge. Meanwhile the fire was leaping from heap to heap of the powder-like slash to cross the road and sweep up the hill with incredible speed. With a thrilling roar it blazed to the tree-tops and rushed up the mountain. Blistering smoke enveloped the fire-fighters. Showers of burning bark pelted them from above.

"To the mill!" Wilkinson shouted; "the men at the mill fled instantly to their stations, and the big hose poured torrents of water on roof and

SUN LIFE ASSURANCE COMPANY OF CANADA

A TOWER OF STRENGTH

1928

Assurances in force (net)	\$1,896,915,000
An Increase of \$408,925,000	
New Assurances Paid for	441,244,000
An Increase of \$112,836,000	
Total Income	144,747,000
An Increase of \$41,972,000	
Surplus earned during the Year	40,264,000
Payments to Policyholders and Beneficiaries	49,920,000
Surplus and Contingency Reserve	66,938,000
An Increase of \$9,157,000	
Total Liabilities (Including Paid up Capital)	422,020,000
Assets, at December 31st, 1928	488,958,000
An Increase of \$87,652,000	
Rate of Interest earned on mean invested assets (net)	6.58%

DIVIDENDS TO POLICYHOLDERS INCREASED FOR NINTH SUCCESSIVE YEAR

The Company has also inaugurated the practice of paying a special maturity dividend on participating policies, ten or more years in force, terminating by death or maturity.

EXTRACTS FROM DIRECTORS' REPORT

... After deducting amounts re-assured, the total assurances in force now amount to \$1,896,915,934.57, an increase of \$408,925,354.68. Policies in force number 633,240, and in addition 136,293 certificates of assurance are held by employees of corporations and firms under the group plan.

While every field of operation contributed its full share to these impressive advances, the rapid development of our business in Great Britain and the United States is especially noteworthy. The generous reception of our Company in countries served by powerful domestic institutions is particularly gratifying, as testifying to widespread appreciation of our record and services.

... The amount paid to policyholders since organization, together with the amount at present held for their profit or benefit, exceeds the total amount received from them in premiums by \$11,702,229.10.

The strength and resources of the Company have been still further enhanced.

The net rate of interest earned on the mean invested assets, after making provision for investment expenses, has risen to 6.58 per cent. Dividend income, bonuses and stock privileges, accruing on many of the Company's holdings, contributed substantially to this gratifying result.

A net profit of \$11,028,854.59 has been realized from the redemption or sale of securities which had risen to high premiums.

The securities listed in the assets have been valued at figures substantially below the value placed on them by the Government. This under-valuation of our securities represents an important safeguard against possible adverse market fluctuations, additional to the reserves specifically provided against that contingency.

We are again able to report that on the bonds and preferred stocks listed in the assets, not one dollar,

due either as interest or as dividend, is in arrear for a single day; while the dividends accruing to common stocks exceed by several million dollars those payable on the same stocks at the time of purchase.

The surplus earned during the year, based on the values given in the accounts, amounted to \$40,264,088.52.

\$10,000,000, has been deducted from the already heavily marked-down value of securities, as additional provision against possible fluctuations, increasing the amount so set aside to \$20,000,000.

The special amount set aside as a liability to provide for unforeseen contingencies has been maintained at \$12,500,000.

\$15,822,339.65 has been paid or allotted as profits to policyholders during the year.

After making all deductions and allocations, \$9,157,066.34 has been added to the undivided surplus, bringing the total over liabilities, contingency accounts, and capital stock, to \$34,438,862.48.

The continued prosperity of the Company enables your Directors to announce, for the ninth successive year, a substantial increase in the scale of profits to be distributed to participating policyholders during the ensuing year.

In addition, your Directors have inaugurated the principle of granting a Special Dividend on participating policies maturing after having been in force ten years or longer. This new bonus will enable policyholders or beneficiaries whose withdrawal is occasioned by the maturity of policy contracts, to participate in the accumulated surplus which it has not as yet been considered prudent to divide.

The effort to provide life assurance at the lowest net cost obtainable has been increasingly appreciated. Our policyholders will be gratified by this further evidence of our desire that the Company's prosperity shall be fully shared by its members.

SUN LIFE ASSURANCE COMPANY OF CANADA

wall. Big jets curved up the hill to drench the dry, hot earth.

In short, quick sentences Wilkinson outlined his plans.

"We will try to stop it on the north at the river, on the south with fire-breaks, and at the track on the east by back-firing. On the west we have to let the fire take its course until it burns itself out on the cliff above." His voice rose in sharp command as he sent the men to their posts. Donald with twenty men under him was set to work digging a fire-break on the south side. A "fire-break" is made by spading up the leaf-mould and humus down to the mineral soil and raking all inflammable material back from each side.

The fire was advancing rapidly and the heat was terrific. Choking and gasping in the stifling, red-hot smoke, the men strove in frenzy of haste to complete the fire-break before the flames should reach them.

A deer with a fawn at her heels came bounding in terror through the screen of smoke. Crows and song-birds made a common escape from a common enemy feared by all. Rabbits, wild-eyed, scuttled in fear; squirrels and chipmunks joined in the hurried flight. Many of these smaller birds and animals would be flanked and lost.

Connie, proud that she could be of

assistance, dashed back and forth carrying messages for Wilkinson to the different fronts.

(To Be Continued.)

Corn is a painful growth. Holloway's Corn Remover will remove them.

Aluminum street cars, lighter and quieter than the heavy steel cars, are in general use, are being tried in several cities in the United States.

When Pain Comes

What many people call indigestion is often merely an excess of acid in the stomach. The stomach nerves have been over-stimulated, and food sour. The corrective is an alkali, which neutralizes the acid instantly. And the best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard remedy for indigestion in the 50 years since its invention. One spoonful of this harmless,

tasteless alkali in water will neutralize instantly many times as much acid, and the symptoms disappear at once. You will never use crude methods when once you learn the efficiency of this. Go get a small bottle to try. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

FLU Germs Breed In the Throat.

First: Appear As A Common Cold, But Gain Tremendous Headway In Six Hours

SOME SIMPLE PRECAUTIONS AGAINST INFLUENZA

Simple precautions taken now will enable you to fight dreaded "Flu" which is sweeping rapidly through the whole country. The germs of Influenza gain access to the body through the mouth and throat. Keep the throat healthy and you go a long way towards stopping the trouble. An effective means of prevention is to gargle the throat three or four times daily with Nerville's. Half a teaspoonful of Nerville's in water makes a most efficient gargle. The germ-killing properties of Nerville's quickly destroy any bacteria in the mouth or throat. If the chest is sore, the throat is hoarse, if you have a cough—be sure to rub the neck and chest with Nerville's. Every drop of it will rub in, and out will come the congestion.

Of course it is absolutely necessary to house-clean the system with Dr. Hamilton's Pills which stimulate the eliminating organs, and rid the system of disease-breeding germs. This combination treatment of Nerville's and Dr. Hamilton's Pills will give prompt and entirely satisfactory results.

Stony Plain and District.

IT PAYS TO PAY CASH.
Mr J P Miller has purchased a New Ford coupe.

Mr P Faulks, Duffield, was a Sunday visitor in Stony.

The local W. I. met yesterday at the home of Mrs I Umbach. The special feature was the reading of a paper by Rev G A Sauder.

A Lutheran service in English will be held in Stony Plain next Sunday at 7.30 p.m., by Rev. Osterman.

GIRL WANTED at Christie's Confectionery; must be experienced.

The members of the Lutheran Ladies' Aid met Thursday afternoon last at the home of Mrs Louie Goerz. Owing to the small attendance, several important matters were laid over to the next meeting for discussion.

"Hec" Fraser's big concert troupe, from Vancouver, paid Stony a visit Monday night. Owing to the short notice given, the attendance was not as large as the good program deserved. The troupe carried an entourage of fourteen persons. A dance followed the show, and there was plenty room for another couple.

United Church Notes.

At Spruce Grove, Sunday last, a very beautiful duet was sung by Mr and Mrs Sherwin.

There was a splendid attendance at the service at Holborn in the afternoon.

The subject under discussion at the evening service in Stony Plain was: The Purpose, Origin and Function of the Church.

Before Williams, P.M.

At the local Court, Tuesday, John Miller, an Edmonton teamster, charged with the theft of two horse blankets from a livery barn, had the charge against him dismissed. No witness for the defence was called.

Mr G W Giese, charged with an infraction of the V. & H. T. Act, had the charge against him dismissed. Lawyer Duncan for the defence.

See-See-See.

The Triple C Girls' Club gave a skating party Monday evening which was very successful. The good music furnished by Stony Plain band contributed largely to the gay humor and high spirits of the crowd. Lunch was served in the Band hall to about 75 people. The boys sang "For They are Jolly Good Girls," with rousing cheers for the girls when the party broke up about 11.30 p.m.

Sporting Notes.

A contingent of the local hockey players motored up to Callahoo on Sunday, to help that team play a city bunch, but the latter failed to show up.

In the curling contest at the local rink, Saturday evening, the Towns councillors overcame a Club team by some 6 points.

Several of the local curling rinks journeyed to the City on Sunday, with the result that they brought back the silver trophy.

Calendar.

MARCH—
14—Town Council meets.
15—U. F. dance, Holborn Hall.
16—Agricultural Society meets in Town Hall.
18—Th. Wine sale.
20—Geo. A. Nichol's sale.
23—E. Stiet's sale.
29—Good Friday.
APRIL—
1—U. F. W. A. dance at Holborn Hall.

Holborn Happenings.

A very interesting event took place last Thursday evening at the home of Mr and Mrs Melker Larson, when their little baby was baptised. A little company of close neighbors was present, including Mr and Mrs Hugh McKinnon and Master Knox; Mr and Mrs Ainer Andersen, Mr J M Kullander, and Mr and Mrs Reuben Larson and family.

After the ceremony, which was performed by Rev G A Sauder, pastor of the United Church, Stony Plain, dainty refreshments were served.

The dancing season here is pretty well billed up, with a dance tomorrow night, and a U. F. W. A. dance Easter Monday, April 1.

Holborn Wheat Pool Local

A meeting in the interests of the Wheat Pool was held here Friday night, with a good crowd in attendance. Mr Washburn gave a brief survey of the workings of the Wheat Pool for the past season. Mr J P Watson gave a fine address, dealing with the marketing question. At the close of his address, Mr Watson answered a number of questions put to him by the members.

Funeral of Stefan Zaft.

The funeral took place Sunday afternoon of Stefan Zaft of Garden Valley district. Deceased was in his 54th year and was an oldtime resident of the district. A service was held at the family residence, and a second service held at St. Matthew's church (Manitoba Synod) Spruce Grove, with Rev G Poetzsch officiating. Interment took place in Spruce Grove cemetery. He is survived by his wife; three daughters (Mrs Deering, Mrs Summarfield and Miss Elsie), and 5 sons, Herman, Paul, Otto, Hugo, Oscar.

Blueberry's Big Event.

The big event of the season at Blueberry took place Friday night last in the school house, under the auspices of the Community Club. The first part of the evening's entertainment was in the form of a concert, and this included solos, duets, recitations and several 1-act plays; all of which were greatly appreciated by the large crowd present. There was dancing after the concert, with the Kotscherofsky orchestra supplying the music.

U. F. A.
DANCE!
HOLBORN HALL,
FRIDAY, MAR. 15.

\$1 Couple. Extra Lady 25c.
Barnes' Orchestra.

Spruce Grove News

A very enjoyable whist drive was held last evening at the home of Mr and Mrs N W Connolly, under the auspices of the local branch of the Red Cross.

The sale is reported of a farm north of town by Mr Jas Callahoo to Mr William McLeod, at \$30. an acre for 480 acres.

Otto Gitzel was up from the Schram camp at Breton over the week end.

The local Eggman brought in 100 settings of Bluebell eggs for hatching, in to the City, Saturday evening, in his motor car.

The death took place on Friday last of the 4-months-old child of Mr and Mrs Jos. L Gagne, from the effects of double pneumonia. The funeral took place on Sunday to St Joseph's cemetery, Rev. Chas. Keenan officiating at the obsequies.

Rev C Keenan will be holding services at the Tomahawk Mission on Sunday next.

Big Meeting at Grove.

The Hotel parlor was well filled Thursday last, when the meeting in the interests of the 'Wheat Pool was called to order by Chairman Johnson. The chairman introduced the first speaker; Mr J P Watson, field supervisor for the Pool in this district. He spoke on the operations of the Pool and showed the immense benefit the Pool has been to Alberta farmers.

Mr A R Brown, a director, was the next speaker. He explained the system of marketing of the Pool, and showed how the wheat-raiser's product was marketed to the best advantage of the raiser. A vote of thanks was tendered the speakers.

Notices!

E H Pidgeon has taken over the J. I. Case agency for Stony Plain territory and will shortly have a full line of farming implements on display in Stony Plain.

Mr A E Brunelle has been appointed agent for this district for the Singer sewing machine.
